SATURDAY SEPTEMBER 5, 1896.

The Coast papers do not appear to care so much lately for Hawaiian royalist interviews.

The Cuban patriots are becoming almost as great boosters as the Spanish "mouth fighters."

Those fanatics who plundered a British Consulate in Crete will after a time come to regret their indiscretion.

Great Britain had the prior claim on Zanzibar anyhow and in taking full possession of a country over which she has exercised a supervision for several years, is only following out a confirmed policy. Advance of civilization again. The governments of irresponsible barbarians are going down in all directions like houses of cards.

Gold must be getting rather scarce and very highly prized indeed when the Bank of England begins to figure on the conservation of its supply. If the yellow metal movement continues in the lines now laid, as indicated in the dispatches, the United States treasury will depend directly on the Bank of England for its supply.

It must have been very clear that Italy was the wronged and offended and injured party in the recent collision with Brazil. Else why should the South American government so readily agree to make reparation? The case develops the fact that an astonishing amount of vigor yet remains in Italy, notwithstanding her reverses abroad and her internal troubles of the past two years.

Li Hung Chang should naturally be surprised at the cordiality, magnificence and elaborateness of his reception to the United States. How can he reconcile the attention given himself with the Chinese exclusion acts upon the statute books of the Great Republic? And it is safe to say that he has not forgotten the frightfully cruel and unjust treatment to which fellow countrymen of his have been subjected in the United States for many years.

It is the San Francisco Chronicle that with the file by this Australia gives a genuine newspaper surprise. It mentions that a number of citizens of the islands presumed to be in opposition to the present Government here are sojourning in the California metropolis. Then the Chronicle goes on to say none of them are connected with any political cabal, that they are all on missions of pleasure or business. The only conclusion to be drawn from this remarkable course of the Chronicle is that its columns are crowded with American political news.

Perhaps the Armenians made a mistake in starting that riot that ended in the Constantinople slaughter. If they did they paid for it dearly on the instant. Whatever the provocation, the wholesale murders committed by the Turks cannot be justified. The recent warnings of the powers to the sublime porte appear to have been wholly futile. The Turkish government has never paid any heed to other nations except when armies were sent to force attention or conviction. This must be repeated. It would be a settlement or solution much more creditable to the century and the world than even the proposed overthrow of the sultan's government. This latter would be only continuously followed by other and bloody revolutions for many years.

THE CAMPAIGN.

The Presidential campaign in the United States may now be said to be in full blast. With the publication of Maj. McKinley's letter of acceptance the issues are fairly and squarely made and the case is before the people with special pleadings in order up to the fateful day of the first week in November. The decision will be voted in less than two months. It is fortunate for the Republicans that their leaders have been able to maintain a balance within the party. The cohesive force is a power. The showing of not a prominent desertion is unparalleled. Even Platt of New York works in the

harness furnished by Manager Hanna. Mr. Harrison has been added to the list of great generals in the field and will be almost a complete offset to Hill in case that gentleman becomes active for Mr. Bryan. The news is brought that commerce is becoming reassured again and that confidence is returning on account of the prospects for Republican victory. Bryan and his hordes have become almost too radical. Their conduct of campaign is beginning to inspire distrust on the part of the average thinking citizen. Their extravagant claims and remarkable promises had better be criticism of the faults in the camp of the opposition, for the Republicans are none too plain or satisfying yet in their stand on finance. The Bryanites do not appear to notice this, but keep shouting doctrine that the most pronounced of honest socialists would not entertain. Maj. McKinley remains at home making speeches to delegations. Mr. Bryan is speaking to crowds along railroad lines. Nothing is said of Hobart, Sewall or Watson. By the end of this month the atmosphere of the struggle will be well enough lighted to predict the outcome with reasonable certainty. At present the tremendous enthusiasm which Bryan's nomination and the Chicago platform evoked has not yet run its course by any means and the people will consider little besides currency expansion. Inroads on the general thought are being made by the systematic work of the Republicans in their effort to avoid this direct issue and interest the voters in tariff and bimetalism.

SUPPOSED TO BE FUNNY.

(Mavericked.)
"Mabel," said the man who favors free silver, "that young man who calls on see you remains altogether too late. It was after half past 12 when he started for home last night."
"I can't help it, father."
"Can't you give him some kind of a hint?"
"I did. But he said he had too much respect for your sentiments to think of leaving until 16 minutes to 1."

WORLD WHEELING.

A German Lad Reaches Honolulu on a Long Trip.

Heinrich Horstmann, a sturdy German of 22 making a bicycle tour of the world, called on The Star this morning. He left his home in May '95 and is to return in two years, working his way for the journey. He is a newspaper correspondent and sells his picture. The Australia brought him from the Coast, he having wheeled over a part of Europe and the American continent. He is a trick rider and at racing has a record of 497 miles. Tomorrow afternoon the visitor will be at the race track with city wheelmen. He rides a Crescent wheel, a fine machine for which H. Hackfeld & Co. are agents.

THE SEPTEMBER "PARADISE."

The September number of "The Paradise of the Pacific" is a handsome issue. It contains a series of pictures that have not been reproduced heretofore; the originals were taken by W. J. McConnell, a recent visitor, and are artistic in every way. Another feature of this issue is an article on coffee, written by a planter; other interesting matter helps to make up a splendid number of the local magazine.

Mrs. S. A. Kell, of Pomona, Cal., had the bad luck to sprain her ankle. "I tried several liniments," she says, "but was not cured until I used Chamberlain's Pain Balm. That remedy cured me and I take pleasure in recommending it and testifying to its efficacy." This medicine is also of great value for rheumatism, lame back pains in the chest, pleurisy and all deep-seated and muscular pains. For sale by all druggists and dealers. Benson, Smith & Co., agents for the Hawaiian Islands.

Steamers Come and Go

And it is a rare occurrence when they do not bring new shipments for L. B. Kerr. Scarcely a month passes but what some new line is added to his already large and varied stock. The latest addition is a corset department, and it goes without saying that the values to be found there eclipse all previous attempts. Ladies should take a look at the celebrated French Wove Corsets now being introduced.

A number of houses and lawns are being built just at present and it would be wrong for us not to "jog" your memory that you can't make grass grow without giving it a little assistance. We handle the Pennsylvania Lawn Mower, the best on earth; in four sizes, 10, 12, 14 and 15 inch blade. The last size is for extra high grass. The "Success" Portable Hose Reels at \$4 50 are not to be questioned as they more than pay for themselves by keeping the hose from rotting. Hose left on the lawn with water standing in them are sure to rot, while five minutes work with the reels takes all the water out and makes the hose last four times as long.

Some of our competitors imagine they are cutting a big figure by selling stoves at \$12. We have a 2-hole stove called the Bono No. 7, which consumes either wood or coal that we are selling at \$9.00. Another one called the Olive, 4 holes, for \$12 50 and the Pansy and Columbus, which are our standards, now selling at \$16 00 to \$28 00. A Pansy stove was being loaded into one of our wagons just as this advertisement was being written. Don't believe all that is told you about the other dealers' stoves until you have seen the above makes, as they are the best to be had at the prices named.

W.W. DIMOND'S

By the Transit which arrived on the 4th inst. we received 100 Jewel Stoves and Ranges, one large car load, direct from the factory at Detroit.

This is our third shipment, and we find that we have only 4 stoves left from our previous lot.

The excellence of these stoves has already been proved by the large sale, but we will name three points:

First. Long life from the heavy high grade of iron, which is the same in the \$12 stove as in the \$50 range.

Second. Economy in the use of fuel.

Third. Quick and even bakers.

We propose leasing these stoves on the following terms:

When the stove is delivered one-third of the price is paid in cash, and the balance monthly thereafter in five equal payments.

If before the expiration of the five months, the lessee wishes to pay off the balance, he will be entitled to a discount of five per cent. on the amount unpaid.

If a customer wants to buy outright, he gets five per cent. discount on the whole amount.

Jewel Stoves and Ranges can be had only of us.

Mr. W. W. Dimond

VON HOUT BLOCK.

J. T. WATERHOUSE.

A dinner cannot be considered much unless the soup is good and how many cooks in Honolulu know how to cook a soup? A combination of water and a few vegetables underlying a greasy scum is called soup by the average celestial and yet a lot of people put it into their stomachs once a day and consider themselves well fed.

To get good soup it is necessary to procure the kind that is made by persons whose education has been entirely in soup. Everybody knows Hucking's, if not from experience then by reputation. They are pure in quality and of delicious flavor. We have in stock all the varieties made by this well known firm. Look at the list:

Mock Turtle; Tomato; Julienne; Ox Tail (soup and bouillon); Mulligatawny; Bouillon of Beef; Consomme of Chicken; Okra or Gumbo.

Then we have Sniders Tomato Soup an excellent article and inexpensive. In Morton's Soups we have Giblet; Ox Tail; Ox Cheek; Mock Turtle; Mutton Broth; Hotch Potch; Soup and Bouille; Vegetable; Tomato and Mulligatawny.
